

Job Title: **AutoCAD Designer**

Location: **Hyderabad**

Role Overview:

Are you passionate about turning ideas into precise, impactful designs? At Carbolink India Private Limited, we are seeking a highly skilled AutoCAD Designer to join our dynamic team. In this role, you will transform concepts into detailed CAD models and drawings, collaborating closely with engineers, architects, and project managers. Your expertise will play a vital role in ensuring our projects meet the highest standards of quality, functionality, and efficiency.

This is an exciting opportunity to work on diverse, cutting-edge projects in a supportive and innovative environment. If you thrive on precision, creativity, and collaboration, we'd love to have you onboard!

Your Mission:

To shape the world, one line at a time! At Carbolink India Private Limited, your mission is to transform ideas into functional designs that power the future of construction. Whether it's creating sleek blueprints or refining intricate CAD models, your work will directly contribute to innovative and impactful projects. If you're ready to blend precision with creativity, we're excited to welcome you to our team!.

Key Responsibilities:

- **Turn Ideas into Reality:** Create accurate CAD models and technical drawings that translate concepts into actionable designs.
- **Collaborate for Success:** Partner with engineers and architects to brainstorm, refine, and finalize design solutions.
- **Precision Matters:** Transform sketches and verbal ideas into impeccable digital representations.
- **Set the Standards:** Ensure every design meets industry standards and project requirements.
- **Detect and Perfect:** Conduct quality checks, troubleshoot issues, and make improvements as needed.
- **Organize Like a Pro:** Maintain a well-structured database of CAD files and documentation.
- **Stay Ahead of the Curve:** Embrace new CAD technologies and methodologies to keep your work fresh and efficient.
- **Innovate and Inspire:** Bring your creative flair to enhance design functionality and efficiency.

Qualifications & Requirements:

- **Educational Background:** Bachelor's degree in Architecture, Engineering, or a related field.
- **Experience:** Proven experience as a CAD Designer with a stellar portfolio of projects.
- **Tech-Savvy:** Proficiency in AutoCAD and a strong understanding of design practices and engineering principles.
- **Detail-Oriented:** An uncanny ability to catch even the smallest errors and perfect every line.
- **Communication Rockstar:** Strong verbal and written communication skills to work seamlessly with cross-functional teams.
- **Team Spirit:** A collaborative mindset paired with the ability to work independently.
- **Time Wizard:** Exceptional organizational skills to meet deadlines without breaking a sweat.

Why You'll Love It Here:

- **Build Trust:** Join a company that values relationships and trust as the foundation of its success.
- **Innovate:** Be part of a team driving innovation in the construction chemical industry.
- **Achieve Growth:** Enjoy competitive compensation with performance-based rewards.
- **Create Impact:** Your contributions will directly shape Carbolink's success and market presence.

About Carbolink:

Carbolink India Private Limited, with over two decades of expertise, delivers innovative solutions in the construction chemical industry. With 350+ products and a commitment to "Trusted Solutions, Proven Performance", we empower industries worldwide.
